

Solar Energy

Arizona's Natural, Renewable Power Source

An Interactive Introduction to the Concepts and Principles of Solar Energy

Friday,
February 13, 2009

8:00 am – 3:00 pm

Hosted by

SRP PERA Club
SRP's Recreational Facility
1 East Continental Drive
Tempe 85281

Registration Fee: \$225

payable to Arizona State University
includes hands-on training,
continental breakfast, lunch, PM
snack, and Power House:
Experiments in Future Technics Kit

Space is limited to 30 participants.

ITE Instructors...

Issues related to energy are among the most important concerns facing society today. During the lifetimes of today's students, significant changes will occur in the energy resources and technologies upon which we depend. Our reliance on renewable energy is increasing now and will continue to increase in the future.

Register now to participate in this hands-on workshop!

Participants will...

- * learn ways to help students address energy issues throughout their lives.
- * discover ways to prepare young people with important knowledge and skills for government, business, or industry roles.
- * design hands-on explorations into natural, renewable energy sources.
- * address ADE's educational objectives and standards through lessons in solar energy.
- * incorporate components of the Power House Kit in the classroom to teach basic concepts and principles of solar energy.

Participants will receive a certificate for 7 hours of professional development credit upon completion of the day's activities.
